CE-marking statement for RECTIFICADORES GUASCH, S.A. power products

Date issued: 10/11/2010

All power electronic devices and/or assemblies from RECTIFICADORES GUASCH, S.A. are mechanically and electrically tested according to test specifications.

Except contrary indication, these electronic components may be used together with other components in electronic systems by system manufacturers, and they are not usable for consumer or final users. Therefore both, do not apply the EMC directive (80/336/EEC and 73/23/EEC) to these components.

CE-marking of the above mentioned components is not allowed.

RECTIFICADORES GUASCH, S.A. products are designed, manufactured and tested according to the relevant product standards to allow the equipment manufacturer (by appropiate usage of the components) to meet the requeriments of the Low Voltage Directive, EMC Directive and the Machine Directive and to confirm this for his equipment by attaching the CE-mark of Conformity, repectively by giving his EC Declaration of Conformity.

All information provided in this document is accurate, to the best of our knowledge, as of the date this document was issued.
